📍 Pune, India | 📞 8983208851 | ✉ shubham.k@cube84.com

Professional Summary

Salesforce Developer with over 3 years of experience in building secure, scalable, and high-performance Salesforce applications. Expert in Apex, LWC, Aura, and Visualforce, with strong command over asynchronous Apex, integration, and product development. Skilled in code quality tools (PMD, Code Analyzer) and security testing (ZAP API Scanner). Successfully led and contributed to AppExchange product launches, SSO implementations, Power BI integrations, and community portals. Recognized for mentoring, clean architecture, and client-focused delivery.

Core Skills

- Languages & Frameworks: Apex, LWC, Aura, Visualforce
- Code Quality & Security: Apex PMD, Salesforce Code Analyzer, OWASP ZAP API Scanner
- Platform Expertise: Salesforce Platform, Experience Cloud, AppExchange
- Asynchronous Apex: Batch, Queueable, Future Methods
- Integration: REST APIs, SSO (OneLogin, Microsoft), Power BI
- Tools & DevOps: Salesforce DX, Git, Workbench, VS Code, ANT Migration Tool
- Data Handling: SOQL, SOSL, Salesforce-SQL Data Migration

Professional Experience

Salesforce Developer

Cube84 Technologies, Pune | Jan 2021 – Present

- Developed and maintained end-to-end Salesforce apps using Apex, LWC, and Aura.
- Implemented SSO integrations with OneLogin and Microsoft Azure AD.
- Delivered Power BI integration with export/bookmark/embed features in Salesforce.
- Led Salesforce to SQL migration for analytics and reporting pipelines.
- Spearheaded code quality enforcement using Apex PMD and Code Analyzer to maintain best practices.
- Performed security testing using OWASP ZAP to identify and mitigate API vulnerabilities.
- Guided junior developers in LWC, Apex architecture, and clean coding practices.
- Contributed to AppExchange product (Mployer) from development to publication.
- Built and optimized community portals (Mentor) on Experience Cloud.

Key Projects

Mployer (AppExchange Product)

- • Role: Lead Developer & Mentor
- • Tech: LWC, Apex, Metadata Config, AppExchange Packaging
- • Features: Employer import/export, deduplication logic, custom metadata-driven mappings

GreenPath

- • Built custom flows, record automation, and analytics components.

VMRay

- • Integrated Salesforce with external APIs; built role-based dashboards and custom logic.

OrientTalent

- • Full-featured LWC interfaces and workflow automations for recruitment platform.

Mentor (Community Portal)

- • Designed scalable Experience Cloud portal for mentors, mentees, and admins.

Additional Highlights

- • Strong knowledge of secure development practices
- • Focused on code performance, reusability, and maintainability
- • Passionate about mentorship and collaborative team development
- • Open to remote, onsite, or hybrid roles
